

Does China support EV charging in Shenzhen?

Shenzhen saw a surge in NEV charging, reaching 670 million kilowatt-hours, a 10.9% year-over-year rise, according to the Shenzhen Power Supply Bureau of China Southern Power Grid. China attempts to support its massive EV customer base.

Does China's Southern Power Grid have a digital power network?

“China Southern Power Grid also has two major pilot projects on power trading in Guangdong and Yunnan provinces, which provide both challenges and opportunities for the country's in-depth digitalization of its power networks,” he added.

How many supercharging stations are there in China?

It's a milestone for the world's largest passenger vehicle and EV market. Chinese media reports, citing data from the local development and reform commissions, said that the city now has 362 supercharging stations for new energy vehicles (NEVs), surpassing the number of gas stations.

Is Shenzhen a 'city of supercharging'?

Shenzhen City started building advanced new energy vehicle (NEV) charging facilities in June 2023 to become “a city of supercharging,” and has set up 161 supercharging stations by the end of the year. The move is expected to relieve the range anxiety among NEV owners. (Xinhua/Mao Siqian)

Which companies use EV superchargers in China?

Xpeng and Nio also have their proprietary chargers, as do dedicated energy companies like Electrly, Tgood, and StarCharge, among others. Shenzhen is the third largest city in China and it now has more EV superchargers than gas stations, local reports said.

Does China have a digital power grid?

[Photo provided to China Daily] China Southern Power Grid has pledged to continue investing in digital power grid construction, including a digital grid across Guangdong, Yunnan, Guizhou and Hainan provinces and the Guangxi Zhuang autonomous region.
