

Enterprise Photovoltaic Panel Price List

How much does a solar panel installation cost?

The best way to evaluate the price of a solar panel installation is in dollars per watt (\$/W). Similar to comparing dollars per square foot when shopping for a home, \$/W helps standardize the cost of solar by showing the cost of solar on a per watt basis. Currently, the average price of a solar panel system installed in the U.S. is \$2.91/W.

How much does commercial solar cost?

Commercial solar - also known as Commercial & Industrial (C&I) Solar - describes the use of solar energy by a range of different organization types, including businesses, government agencies, and nonprofits. Commercial solar systems cost an average of \$1.66 per watt, or roughly half the price of residential systems.

How much does a 5 kW solar system cost?

Looking at national average pricing data, we found that the cost of owning a 5 kW solar system ranges from \$13,250 to \$21,000, or from \$2.65 to \$4.20 per watt, and that's before considering the benefits of any available tax credits or incentives *. How do I know how much sun my roof gets?

How much does solar panel maintenance cost?

Solar panel maintenance costs: Solar panels have no moving parts, so very little maintenance is required. However, getting routine professional solar panel cleaning and inspections every two years can keep your system in tip-top shape. These solar maintenance costs can be about \$300 per session.

How much does a 5000 watt solar system cost?

A fully installed solar system typically costs \$3 to \$5 per watt before incentives like the 30% tax credit are applied. Using this measurement, 5,000 Watt solar system (5 kW) would have a gross cost between \$15,00 and \$25,000. The price per watt for larger and relatively straightforward projects are often within the \$3-\$4 range.

Are thin-film solar panels a good fit for RVs?

Still, if you're on the go, we believe thin-film solar panels are a good fit for RVs because of their lightweight properties. Depending on which state you live in, your average 6kW solar panel system will cost between to install after accounting for the 30% solar tax credit.
