How much does solar panel maintenance cost?

Can I perform it myself? Solar panel maintenance costs \$300 to \$850 per year on average, depending on the system size, type, location, and warranty requirements. Solar panels are relatively low maintenance, but an inspection and cleaning once or twice per year helps keep the system running efficiently and maximizes your return on investment.

How much does solar panel cleaning cost?

A typical residential solar panel system has 15 to 25 panels. Some solar panel installation contracts include annual inspections and cleaning. Professional solar panel cleaning costs \$150 to \$500 total or \$10 to \$20 per panel on average, depending on the job size, complexity, cleaning method, and if the service includes an inspection.

How much does a solar panel installation cost?

For larger arrays of 20 to 40 panels, the cost could be anywhere between \$400 to \$600. More often than not, inspection costs are already included in the overall maintenance cost. If not, keep aside around \$150 to \$300 for this purpose to ensure the efficient working of your solar panel system.

How much does it cost to repair a solar panel?

Cleaning the system is as important as cleaning and servicing your car. The average cost to repair a single solar panel ranges from \$20 to \$3,000, depending on the problem. Neglecting the system can lead to decreased performance, electricity shorts, and even house fires.

How much does solar panel removal cost?

If your panels have reached the end of their lifespan or you need to relocate your system--temporarily for roof repairs or permanently to a new residence-- solar panel removal costs \$200 to \$500+ per panel, depending on the system size, job complexity, and if you need panels shipped to a new location or reinstalled.
