

Professional generator rental and sale

What is a power generator rental?

A power generator rental from Herc Rentals can be a reliable electricity source at your facility or remote jobsite. Select from various sizes, configurations and output capacities. Our diesel genset rental lineup typically includes industrial models intended for heavy-duty power generation jobs and large-scale manufacturing operations.

What types of generators can I rent?

Our rental inventory includes diesel generators, natural gas generators, UPS power system trailers, standalone UPS power systems, and additional critical power equipment. Whether the requirement is for a data center, bank, concert venue, oil rig, or a winery.

Where can I find reliable generator rental solutions?

Discover reliable generator rental solutions designed to provide power for various applications. Total Energy Solutions offers a range of generator rental solutions designed to provide power for events, construction sites, emergency backup, and more.

Where can I rent a gas generator?

Look for our chat agents, bottom right corner, during normal business hours. Global Power Supply has natural gas, dual-fuel, propane, and field gas generator packages available for rent or lease. With sizes starting at 50 kW and up to multiple MW applications, we're prepared for any industrial or commercial rental requirement.

Can I rent a diesel generator?

We have diesel generator rentals available for all your temporary power needs. We offer nationwide rentals for all commercial and industrial applications, in sizes starting at 50 kW and larger. If your business needs a temporary backup or prime power solution, we've got you covered. Single, double, and triple shift rates available upon request.

Why should you rent a generator?

Our generator rental solutions use remote monitoring technology to ensure efficiency and maximize uptime. This technology also carries sustainability benefits, as it reduces unnecessary power output. Our team of engineers monitors a range of parameters, including loads, maintenance requirements, warning and failure alarms, and GPS locations.
