

Solar power roof rental

Can a solar roof power a home?

Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more.

Can a solar roof be used with a Powerwall?

Combine your Solar Roof with Powerwall--a home battery featuring an integrated solar inverter for increased efficiency and dependable energy storage 24/7. With the Tesla app, you can monitor your energy production in real time. Control your system from anywhere with instant alerts and remote access.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Does solar roof have a warranty?

With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come. Our in-house team of energy professionals has installed nearly 4.0 GW of solar across approximately 480,000 roofs--cumulatively generating over 25.0 TWhs of clean energy. From design to power on, we take care of everything.

Can you sell a home with a solar lease?

A solar lease may complicate selling your home: If you need to sell your home during a solar lease term, you'll either need to buy out the lease from the third-party owner or transfer the lease over to the new homebuyers, which can be tricky if your prospective buyer doesn't want to assume the lease.

Can you get a federal solar tax credit if you lease?

You aren't eligible for the federal solar tax credit if you lease your solar panels, which means you lose out on thousands of dollars of savings. Under a solar lease, you won't own your solar system, but will still benefit from its generated electricity.
